

Friern Library, Barnet, London

Client :
Enervis

Consultant Engineers :
Mendick Waring

Publicstar Services:
Design, Supply and Install BMS controls for Heating,
Hot Water and Ventilation Systems

New Library with heating, hot water and ventilation controlled by the BMS. Heating is provided by a radiator system and ventilation by an AHU.

The BMS comprises a Zone Controller mounted on the front of the Boiler Room Mechanical Control Panel and provides heating demand, setpoint adjustment and occupancy settings.

Optimisation and compensation of the heating system is included.
